

AXIS Extended Warranty

Peace of mind. Year after year.

- Warranty coverage up to 5 years
- Additional years of trouble-free operation
- Complete reliability and control

Extended warranty

Axis provides 3 years limited hardware warranty depending on the product.

AXIS Extended Warranty is a service available for purchase offering the possibility to extend such Warranty. It covers cameras, video encoders, video decoders and physical access control products, and is sold in 2-year extension blocks for a total warranty period of maximum 5 years.

You need to order and register the extended warranty within 6 months from product purchase.

Extend the warranty in 4 basic steps

This is all you need to do:

1. Order a warranty code that includes as many warranty extensions as you need, for a total warranty period of maximum five years.
2. Collect your network video products in a site in [MyInventory](#).
3. Redeem the warranty code in [MyInventory](#).
4. Finally, register warranty extensions for each network video product in [MyInventory](#).
